

NEW ARRIVALS.

Gainesville's Advantages Are Recognized and Appreciated Everywhere.

Gainesville is growing, and it is growing substantially. The educational and other advantages offered by this city are tempting to people from every section of the United States, especially those who have children, for no city or county in the State can offer better educational inducements than Gainesville and Alachua county.

Among the latest arrivals who have come to make their home here are Mr. and Mrs. R. Dale Gilmore and two daughters of Philadelphia, who have rented the home, 705 North University street, until they can secure a house of their own.

Mr. Gilmore, who is an excellent gentleman with a fine family, was greatly impressed with Gainesville on account of the educational and religious advantages here, and, inasmuch as he desired to bring his family to the South, he declares he could not find a more enlightened and refined place than a city that boasted of good schools and good churches.

The people of Gainesville will welcome this family, and trust they will be well pleased.

John Weer, an elderly gentleman of Chicago, is also a late arrival. Mr. Weer spent last winter here and was well pleased. The fact that he returned as early as October, when he did not come until January of last winter, is evidence that he is pleased. "I think Gainesville is the best town of its size, or any other size, in the United States," remarked Mr. Weer, good-naturedly. "If I was not impressed with the city I would not be here. The climate is fine, the people are all that could be desired, and in all Gainesville is the ideal place."

PROCEEDINGS IN BANKRUPTCY

Many Clients Testified Through Attorneys of Indebtedness.

The proceedings in bankruptcy against the Espanola Lumber Company do not yet seem to have been settled, as another hearing was given before Referee Palmer Monday, when Dr. Crill of Palatka, the purchaser of the defunct concern, and many attorneys, were present.

Dr. Crill, as a matter of course, was here for the purpose of adjusting matters as amicably as possible, while the attorneys were representing various creditors, some of whom had been "gouged" by the Espanola Lumber Company to the extent of nearly \$3,000.

The meeting was held in the office of Referee Palmer, and lasted nearly all the afternoon.

The plant of the Espanola Lumber Company is located near Rochelle, and is one of the finest in this section, having a cutting capacity of nearly 50,000 feet per day. It was originally erected by J. L. Kelley & Sons, who sold to the Kelley-McDonald Company, this company disposing of its interests later to a Mr. Patterson.

The escape was not discovered until this morning. Telephone descriptions of Warner are being sent in every direction from Hopkinsville.

A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes: "I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use."

"Immediately after my marriage I found that my health began to fail. I became weak and pale, with severe bearing down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would bleed after eating and frequently become nauseated. I had an acid discharge and pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness,

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

A Wooden Actor.

When Morris had the Haymarket theater Jerrold had occasion one day to find fault with the strength, or rather, the want of strength, of the company. Morris expostulated and said: "Why, there is V. He was bred on these boards!" "He looks as though he had been cut out of them," replied Jerrold.
